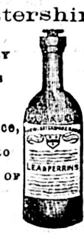
SAUCE.---LEA AND PERRIN'S Worcestershire Sauce.



PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce, and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 18—
"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

Caution.
Lea & Perrins

Beg to caution the public against spurious imitations of their celebrated

WORCESTERSHIRE SAUCE.

L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS, the labels closely resemble those of the genuine Sauce, and in one or more instances the names of L. & P. FORGED.

L. & P. will proceed against any one who may manufacture or vend such imitations and have instructed their correspondents in the various parts of the world to advise them of any infringement of their rights.

Ask for Lea and Perrins' Sauce.

*** Sold Wholesale and for Export by the Proprietors. Worcester; Messrs. Crosse and Blackwell, Messrs Barclay and Sons, London: etc., etc.; and by Grocers and Oilmen universally. n10 lawly

CROSSE & BLACKWELL,

PURVEYORS TO THE QUEEN,
SOHO SQUARE, LONDON.

CROSSE & BLACKWELL'S

Renowned first-class Manufactures are obtainable from every respectable Provision Dealer in the World.

Purchasers desirous of being supplied with C. & B.'s goods, which are all of the best quality, and of a thoroughly wholesome character, should be careful to see that inferior articles are not substituted Their genuine preparations bear their names and address upon the labels.

Their Pickles are all prepared in Pure Malt Vinegar boiled in Oak Vats, by means of PLATINUM STEAM COILS, thus avoiding all possibility of contact with COPPER, or any other injurious metal; and they are precisely similar in quality to those supplied by them for use at

HER MAJESTY'S TABLE.

Oxford Sausages, Patent Preserved Hams, Cheese and Bacon, Yorkshire Game and Pork Pates, Fresh Oysters in Tins, Salmon Cutlets, Whitebait, Fillets of Soles, Bologna Sausages, Herrings a la Sardines, Soups, Meats, and Vegetables in Tins. Fruits in Syrup, also in Noyeau and Brandy, Crystallized Fruits, all of which, as well as many articles too numerous to include in an advertisement, they can strongly recommend. Their Salad Oil is the finest imported.

C. & B. are AGENTS for LEA & PERRINS CELEBRATED WORCESTERSHIRE SAUCE, Carstairs' Sir Robert Peel's Sauce M. Soyer's Sauces, Relish and Aromatic Mustard, Payne's Royal Osborne Sauce, Captain White's Oriental Pickle, Curry Powder and Paste, and Mulligatawny Paste, Grimwade's Dessicated Milk, and for Mason's French Chocolate. eow

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr J Collis Browne M.R.C.S. L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist) The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE It relieves pain of any kind, soothe the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M's Consul at Manilla, dated Sept. 17, 1864: —"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE and with a small quantity given to me by Dr Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew M D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery.' To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations Never be tempted to buy Cholorodyne except in sealed bottles, having the words, "Dr J. Collis Brownes' Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT 33 Great Russell street. Bloomsbury, London. Sold in bottles, 2s. 9d. and 4s. 6d. ju24 lyw

Dr. Chas. H. Tozer's
PRIVATE MEDICAL INSTITUTE
N. E. cor. Jackson & Kearny Sts.,
SAN FRANCISCO, CAL.

Established in the city of Sacramento in 1852, and removed to San Francisco in 1862, for the express purpose of affording an Asylum to those afflicted with Chronic and Venereal Diseases, and for the Suppression of Quackery.

TO THE AFFLICTED.

DR. TOZER, IN RETURNING THANKS to his patients and friends in the country, would most respectfully inform them that he can be found as usual, at his Institute, N. E. corner Jackson and Kearny streets devoting his time and attention particularly to the following Diseases, viz: Syphilis in all its various forms, Gonorrhœa, Gleet, Stricture of the Urethra, Nocturnal Emissions, Sexual Debility, Diseases of the Bladder and Kidneys Etc., Etc From his long experience and extensive practice, he can warrant a perfect cure in all of the above mentioned cases.

No deleterious drugs used in my practice. My charges are moderate and my treatment to my patients honorable. The utmost secrecy observed in all cases.

SEMINAL WEAKNESS.

Should you be afflicted with any of the following symptoms, such as Weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory Confusion of Ideas, and depression of Spirits, Evil foreboding, Self-distrust and an Aversion to Society, consult Dr. Tozer at once, and he will restore you to perfect health.

TO FEMALES.

When you are afflicted with weakness of the back and limbs, headache, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of the monthly sickness, Sterility and other diseases peculiar to females—consult Dr. Tozer and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourselves from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure or of Meeting any one except the Doctor.

TO CORRESPONDENTS.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of Dr. Tozer, can by submitting a written statement of their cases to the Doctor, receive all the attention and medicines necessary to effect a cure, without the necessity of a personal interview

All letters strictly confidential, opened and replied to by the Doctor himself

Consultation at the office or by letter—FREE

☞ Cures in all cases guaranteed.

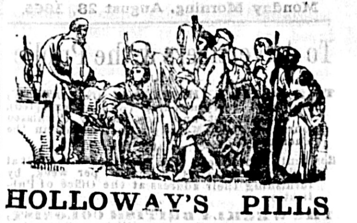
The Invalid's Friend.



HOLLOWAY'S PILLS

Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but little wine, beer, or spirits, or far better abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters

If there is one thing more than another for which these Pills are so famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous, and renewing suspended secretions. Universally adopted as the one grand remedy for female complaints these Pills never fail, never weaken the system, and always bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action, they are wonderfully efficacious in cases of spasm—in fact they never fail in curing all disorders of the liver and stomach.

Bronchitis, Diptheria, Coughs and Colds

No diseases are more frequent, few more dangerous, than affections of the respiratory organs The first symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing and enable the windpipe and lungs to perform their functions with ease and regularity These Pills by their purifying powers cleanse the blood from all impurities and thus fortify the system against consumption, asthma and other pulmonary complaints.

Debilitated Constitutions

In cases of debility, languor and nervousness, generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of diseases re-establish the digestion, regulate all the secretions, brace the nervous system, raise the fallen spirits and bring back the frame to its pristine health and vigor.

Billiousness, Loss of Appetite, Headache, and Lowness of Spirits.

These Pills effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, [illegible] and overcome giddiness, headache and palpitation of the heart.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague
Asthma
Billous Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas
Female Irregularities
Fevers of all kinds
Fits
Gout
Head-ache
Indigestion
Inflammation
Jaundice
Liver Complaints
Lumbago
Piles
Rheumatism
Retention of Urine
Scrofula, or King's Evil
Sore Throats
Stone and Gravel
Secondary Symptoms
Tic-Doloureux
Tumours
Ulcers
Venereal Affections
Worms of all kinds
Weakness from whatever cause &c., &c.

---

THE AMERICAN AND CANADIAN CONVENTION.

A few issues back we alluded in an article on reciprocity to the great commercial convention which was to have met at Detroit on the 11th or 12th of July. Our Canadian exchanges by the steamer of Friday give the full particulars of this important event. Upwards of three hundred and sixty representatives of the various Chambers of Commerce from Nova Scotia to California assembled to discuss the commercial relations between the United States and Canada; or in other words the advisability of removing, modifying, or discontinuing the Reciprocity Treaty and extending the capacity of the Canadian canals. Although, however, these were the most prominent subjects for debate, the representatives of the commercial boards and societies in the United States met also to consider the commercial and financial condition of their own country, and to draw up commercial "platforms" by which the future policy of the Republic should be guided. The Convention has, of course, no official authority either for its meeting or its result, but representing the great monied power of the American continent its debates cannot but have the most marked effect in the policy of both the United States and the North American colonies. "What is said and done by this Convention" says the Toronto *Globe*, "will reverberate over a wide area, will arouse the sleeping echoes of the Bay of Fundy and the Gut of Canso, as well as startle the dwellers on the far-west prairies. No such body has ever before assembled, within our knowledge, representing so great a territory, to discuss commercial questions. There have been world conventions of philanthropists to discuss questions of interest to all nations, and meetings of evangelical alliances, in which a common religious faith and efforts to promote it were the all-absorbing themes; but on no former occasion have the merchants of a territory extending over a distance of three thousand miles assembled to discuss the ways and means of mutual intercommunication."

The representatives from the British North American Provinces met and concerted a general plan of action on the Reciprocity Treaty, before they entered the Convention; for they were well aware of the antagonistic spirit which animated many of the representatives from the United States. Among the British delegates were the Hon. Joseph Howe and the Hon. T. D. Archibald, from Halifax; the Hon. Malcolm Cameron and P. Garneau from Quebec; Hon. George Coles from Prince Edward's Island; Hon. A. E. Botsford and Hon. W. H. Steeves from St. John's, N. B.; and the Hons. W. McMaster and J. McMurrich from Toronto. After considerable discussion a President was elected in the person of General Wallbridge, who showed in his opening address a wish for continued reciprocity but a much warmer desire for the annexation of the British North American Provinces to the United States. The latter sentiment was loudly cheered by the Americans and received with good natured dissent by the British delegates. After the body had got properly organized a good amount of preliminary work was transacted, and it was generally agreed that the subject of reciprocity should take priority in the order of debate. In an assemblage of so many conflicting interests it was only natural that some little discordant elements should have made their appearance and we have therefore the Chicago and the Buffalo delegates at the outstart threatening "secession" if a certain scheme, which the Chairman proposed in reference to the voting, be carried out, and if their respective cities be not more fairly represented on the Committees. The disturbance was, however, soon quieted, and things went on harmoniously. Amongst the speakers on the occasion was the Hon. Malcolm Cameron, whose address appears to have carried the palm. "His speech" says the Toronto *Globe* "was a splendid success. He complimented and joked the Americans until he got them into thoroughly good humor, making even the Chicago men roar with laughter. Scores of times did the loud laugh make the hall ring. Having got his audience in the right temper, he heaped upon them, in the same handsome style, the most telling arguments in favor of the largest possible degree of free trade between the two countries. Mr. Cameron was highly complimented by the British Americans on his success, and Americans pronounced it 'a staving speech.'"

So far the speeches given do not enable us to form any idea of the probable result; that the decision of the Convention will, however, have an important bearing on the destiny both of the United States and the British colonies in North America is beyond dispute. If it tends to the abrogation of the Reciprocity Treaty Canada will have to choose between two extreme courses. Either protection in its most rigid form will have to be adopted, or she must accept the doctrine of annexation put forward by the President of the Convention. The first course will be a severe measure of retaliation on the Americans, but it would also lead to smuggling by wholesale on the borders—an evil certainly not so much to be dreaded by Canada as by the Republic, but still an evil of no insignificant character to the British Provinces. If the latter course—annexation to the United States—be adopted, then farewell to British rule on any part of the Northern continent—not even excepting Vancouver Island; for in the very nature of things our national destiny must go sooner or later with that of our colonial brethren on the other side of the Rocky Mountains. If, on the other hand, the result of the Convention should tend to the continuance of the treaty we of the Pacific colonies will have ourselves to blame if we are not included in the reciprocal arrangement. While the matter was still pending and when we had undoubtedly many opportunities of putting forward our claims in the proper quarters, all that the Governments of both Vancouver Island and British Columbia were thinking of was increasing the taxation of the respective colonies beyond the capacity of the populations; and all the ambitious members of the mercantile class were doing was chasing a will-'o-the-wisp, and helplessly lamenting their inability to catch it, on account of something they amusingly called "over-legislation." Arrogating to themselves the Atlantean capacity of "carrying Cariboo on their back," they nevertheless are either unable to have their interests represented in the great commercial convention, or they look upon the most important event in the commercial history of the American continent in the same manner they would view a patlatch among the Songish Indians. Had they looked properly after their own interests, and the interests of the colony, they would have made some provision to have had Vancouver Island represented in that deliberative assembly which met on the 11th of July at Detroit.

Dr. Chas. H. Tozer's PRIVATE MEDICAL INSTITUTE

N. E. cor. Jackson & Kearny Sts.,
SAN FRANCISCO, CAL.

Established in the city of Sacramento in 1852, and removed to San Francisco in 1862, for the express purpose of affording an Asylum to those afflicted with Chronic and Venereal Diseases, and for the Suppression of Quackery.

TO THE AFFLICTED.

DR. TOZER, IN RETURNING THANKS to his patients and friends in the country, would most respectfully inform them that he can be found as usual, at his Institute, N. E. corner Jackson and Kearny streets, devoting his time and attention particularly to the following Diseases, viz: Syphilis in all its various forms, Gonorrhœa, Gleet, Stricture of the Urethra, Nocturnal Emissions, Sexual Debility, Diseases of the Bladder and Kidneys to., Etc From his long experience and extensive practice, he can warrant a perfect cure in all of the above mentioned cases.

No deleterious drugs used in my practice, My charges are moderate and my treatment to my patients honorable. The utmost secrecy observed in all cases.

SEMINAL WEAKNESS.

Should you be afflicted with any of the following symptoms, such as Weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and depression of Spirits, Evil foreboding, Self-distrust and an Aversion to Society, consult Dr. Tozer at once, and he will restore you to perfect health.

TO FEMALES.

When you are afflicted with weakness of the back and limbs, headache, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of the monthly sickness, Sterility and other diseases peculiar to females—consult Dr. Tozer and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourselves from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure or of Meeting any one except the Doctor.

TO CORRESPONDENTS.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of Dr. Tozer, can by submitting a written statement of their cases to the Doctor, receive all the attention and medicines necessary to effect a cure, without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter—FREE

☞ Cures in all cases guaranteed.

THE CHURCH RESERVE—ANOTHER PETITION—The following memorial will, we understand, be presented to the Mayor and Council this evening:

We the undersigned, the Bishop, Clergy and Laity of the Catholic Church in this Island, acting on behalf of absent members, as well as for ourselves, beg to make known to your Worship and Council that in consequence of obstructions having been made to our usual way of carrying our dead from our church to the public cemetery, we obtained in 1861, by a judgment of the Supreme Court of this Island, not only the removal of the obstructions, but also our usual right of way, to be free and unrestricted for ever. This judgment of the Supreme Court has been respected until recently, when obstructions have again been placed across our right of way, and within the last few days a two-story building has been erected on a portion of it. We therefore call upon your Worship and Council, as the Conservators of the public thoroughfares and representing in your corporate capacity our individual rights, to cause such obstructions to be immediately removed in order to enable us to carry our dead to the public cemetery without any deviation or hindrance from our usual and undoubted right of way, as obtained by the judgment aforesaid.

ARRIVAL OF THE ANN ADAMSON—MORTALITY AMONGST THE CREW.—News was received in town last evening from Mr. M. Muir, of Sooke, of the arrival of this long expected vessel from England. The Ann Adamson sailed on the 4th January, and has been nearly eight months on the passage. Her crew have suffered fearfully from scurvy, four of them having died within the last week, and the rest so much reduced that Captain Sutton was unable to navigate his vessel, and consequently anchored off Sooke Harbor, sending word to his agents, Messrs. Dickson, Campbell & Co., of this city, of his helpless condition and requesting the aid of a steamer. The Diana started last night for Sooke to tow her to port, taking the pilot boat with her. According to the account received the vessel was in such a helpless condition that the services of the female passengers on board were required to enable the master to reach anchorage. The ship's manifest is published under the proper head.

SLEIGH ROAD IN BRITISH COLUMBIA.—Sealed tenders will be received up till noon, September 11th, for keeping open during the winter a Sleigh Road between Hope and Princeton. Particulars of the contract are published in the B. C. *Government Gazette*.

THE CITY COUNCIL—Another interesting discussion on the Church Reserve question is expected to take place this evening, when the course to be pursued by the Council in reference to the obstructions will probably be determined.

FROM SAN FRANCISCO—The ship A. W. Lawrence, from San Francisco, bound to Nanaimo, is lying in Royal Roads and will be taken in tow to her destination by the Otter.

NEW WHARF AT NEW WESTMINSTER.—The Hon. Mr. Holbrook is about to erect a new wharf at this place. Tenders are called for by the architects, Messrs. Wright & Saunders of Victoria.

NANAIMO SCHOOL HOUSE—Messrs. Wright & Sanders have prepared the plans for this structure, which will be an ornament to the town. It is estimated to cost $3000.

H. M. S. Clio left Esquimalt on Saturday for San Juan Island and Nanaimo.

A FRAGRANT BREATH AND PEARLY TEETH are easily attained, and those who fail to avail themselves of the means should not complain when accused of gross neglect. The SOZODONT will speedily eradicate the cause of a foul breath, beautifying and preserving the teeth to the oldest age.
Sold by all Druggists.

THE KOOTENAY MINES—The *Columbian* publishes a special dispatch from P. O'Reilly, Esq., Gold Commissioner at Kootenay, to the Hon. Col. Secretary of British Columbia, dated July 10th. The news though not very important is satisfactory. The revenue returns are encouraging. A considerable quantity of gold dust has been seized for attempted evasion of export duty. With one exception the inhabitants are represented as most orderly and well conducted. The reported discoveries in the Cœur d'Alene country and Upper Columbia River had caused a rush for those parts, but the Commissioner adds that several persons of credibility had arrived direct from Cœur d'Alene stating that the rumors from that section were utterly groundless and that the Boise mines have not justified the expectations formed of them; it was therefore not improbable that a large portion of those who had left would return. Things were beginning to look business like and claim holders were working with redoubled energy. The water was at a proper stage for working the creeks. The Victoria ditch was completed and the claims were just beginning to feel the benefit of it. Messrs. Dore Reece & Co., the proprietors, were constructing a large reservoir at the terminus of the ditch. Claims previously mentioned still continued to pay well. Nothing was reported from the prospecting party on Elk river. News from Colville with reference to mining on the Columbia was not satisfactory. Gold existed on the bars which paid well, but in very limited quantities. Mr. Dewdney's trail is well spoken of. He had selected a good straight line with easy grades, and had completed 18 miles from his starting point at Pea Vine Prairie, making a continuous line from the creek of 43 miles. He had left this end of the line and with a view to setting a party to work at Fort Shepherd and also at its junction with the Rock Creek trail, near Boundary Creek, expecting to have the whole line sufficiently advanced for travel by the middle of August.

RESERVE AT SHUSWAP LAKE—The Chief Commissioner of Lands and Works in British Columbia gives notice that a Reserve has been made in the vicinity of the Hudson's Bay Company's Establishment on Shuswap Lake, being the tract of land embraced by a line starting at the N. E. corner of the Lake and running N. half a mile, thence due W. for two miles, and thence due S. until the western shore of the Lake is reached. The shore of the Lake forms the Southern Boundary of this Reserve

THE RIFLE MATCH between ten of our Volunteers and the Navy is appointed to come off at Esquimalt on Thursday week.

THE U. S. S. SUWANEE—A large number of visitors inspected this ship yesterday at Esquimalt.

THE EARTHQUAKE on Friday night was felt at New Westminster.

VICE ADMIRALTY COURT.

[Before His Honor David Cameron, Esq., C. J., Judge and Commissary of the Vice-Admiralty Court, V. I.]

ALEXANDRA AND FIDELITER.

THIRD DAY.

William Manly—Evidence continued—Heard the captain of the Fideliter call in a loud voice to the captain of the Alexandra to port his helm; I concluded he spoke to the captain of the Alexandra. [Shown points on the map.] The Alexandra was as nearly as I could judge some 300 or 400 yards out at sea; thought both vessels were making for Victoria harbor; the Fideliter was pretty near into land somewhere about Clover Point; the Alexandra was outside on my left, and the Fideliter was inside the Alexandra and closer in shore; the Alexandra appeared about 400 or 500 yards on my left when I was looking over the Fideliter's bows. [Asked and illustrated by the doors and windows of the court; the door the Fideliter, and the second window the position of the Alexandra.] They were about 80 or 100 yards apart when the captain shouted to the captain of the Alexandra; the first thing I heard after the whistle was blown was the captain shouting to the Alexandra "Port your helm, boys;" heard no answer; the night was so dark I cannot say how far they were from the shore when they struck; the whistle blew many times, in fact it kept on blowing till the Alexandra struck: there was no answer to the whistle that I heard; after they struck I heard Captain McCulloch say: "Well, lads, you've made a nice mess of us now," or something to that effect: I faced the bows all this time; McCulloch then added, "For God's sake shove them both ashore, for I'm sinking;" I was standing as near as possible amidships; Captain McCulloch's demeanor appeared by his speech to be very cool; on board the Alexandra they appeared in confusion, and I was sorry I had left the Fideliter; I don't know where the captain of the Alexandra was; I don't know the captain from a passenger; I went back to Victoria; the Alexandra was locked to the Fideliter about two minutes; when they were locked the stems of the vessels bore round together; cannot say how long they were locked before they bore round; I am a farmer and have been brought up one; I have been to sea, but not at work or as a sailor.

Cross-examined—Had freight on board; three or four tons of oats, valued at 2½ cents per pound, of 2000 lbs. to the ton; It was dark when I first saw the Alexandra; I will not swear I did not see three lights; but I will swear I saw green and white, and that from the time I first saw her till the collision she was always on the left; apprehended no danger, and noticed no change in her lights; apprehended danger when distant one hundred yards or so, and the captain sung out to her; did not notice at that time what lights I saw; don't know if the angle before described altered; won't swear she did not come in like that [as shown by models]; after she struck she swung round so, [as shown by models] and then I got on board the Alexandra; I now know Captain Coffin: heard no order given by Captain McCulloch to port his helm; but am sure he called so to the Alexandra.

Re-examined—Was ten or twelve feet from the wheel-house; it is on the upper deck; I was on the lower deck.

Alexander John Chambers—I was supercargo on board the Fideliter; the first I knew I heard a whistle when off Trial Island; this caused me to know there was something unusual; I was in the cabin; on getting abreast the engine-room I met the engineer coming in the opposite direction; without explaining why he told me to go back; as I got on deck the Alexandra struck the Fideliter; on reaching the fore part of the pilot-house I looked round to see where we were; saw that the Fideliter was heading in for the land between Finlayson Point and Clover Point; the Alexandra seemed to have struck us as if she had come [by models] from abaft the beam; I noticed the engines of the Alexandra were moving as well as our own just after the collision; whether backing or going ahead I cannot say; from the time of hearing the second whistle ten or twelve seconds passed before I got on deck; I have myself had command of a ship; if two ships approaching end on have head way; and their helms are aport, and they are moving under that influence, I consider ten seconds would clear them; suppose one ship is hard aport at that time it would depend on the distance between them whether it would facilitate her clearing; I then lowered a boat to see after the cargo; from my knowledge of seamanship and from what I saw the Alexandra was out of her proper course which must have been caused by her helm being starboarded and to be right it should have been ported. I have been 14 years at sea—a little time of which has been spent ashore—first in a vessel chartered by the Hudson Bay Company. Afterwards in another vessel. Again in another ship employed by the Hudson Bay Company.

Cross-examined—When I came on deck we were close to Finlayson's Point more than half way from Clover Point. I cannot state nearer than that. I heard two whistles positively, and it may be more. Our own ship was heading in shore when I first noticed it four or five seconds after I came on deck.

John Chapman Davie, M. D.—Am an M. D. Was passenger on the Fideliter; observed the lights of the Fideliter; the red light was on the port side and the green on the starboard side; they were about midships on the side; as we neared Clover Point I saw the Alexandra; as far as I could judge the steamer was coming directly for us; we were end and end on; I did not notice her lights; I judged her position from seeing the boat herself; I heard a whistle from the Fideliter.

Mr. Wood objected and said that his learned friends were constantly "setting upon the court" and getting evidence by persistently putting leading questions.

Heard in about five minutes her whistle again; heard a continuous whistling and I believe I heard the Alexandra whistle; this was when we were nearer 300 yards than 700 yards; I then observed the Alexandra; we were at that time heading towards shore, and the Alexandra was also heading towards shore; I then noticed the Alexandra's lights; just before she was into us she shut out her red light, at this time when she shut in her red light the Fideliter's course was towards the shore; she then ran into us on the port beam; between the responsive whistle less than a minute elapsed before the collision; when I first came on deck and saw the Alexandra it was off Trial Island; I cannot say what the position was; when I first saw her so as to notice her position the Alexandra was (by models) end on; we had then not quite reached Clover Point; on map the collision was between Finlayson and Clover Point about half way.

I was not on the hurricane deck and heard no orders given to the man at the wheel; when we were about opposite Clover Point the helm was put to port, and it was some little time that way; it then was put hard aport and we ran directly towards shore; whilst we were running towards shore the Alexandra was also running towards the shore.

Cross-examined—At the time of the collision I was on the main deck; do not know as a fact that lights are always cressed so that you cannot see them across the bows? I do not know, I don't recollect seeing all three lights about opposite Clover Point; before we ported our helm we appeared to be running for one end, then afterwards both ran towards the shore and the Alexandra was on our port side; (showed the angle by models at which they then were) and she was abaft the point when she struck us; when I felt our helm was put to port I could then only see the green light of the Alexandra from my position; as far as I could judge when the helm was ported we were running across the Alexandra's bows and almost immediately the Alexandra appeared to starboard; she might have varied, but I did not look minutely to see whether she did so or not; the Alexandra did not appear at right angles then but before the collision she was nearly so; for all I know her lights went round to abaft the beam; she must have done so; before the collision the green light appeared to lie abaft the point of collision as she came on.

Re-examined—On rounding Clover Point [showed by models the positions on A. F.] When Fideliter began to go to land [showed by models]. When they struck [showed by models.]

James McCutchon—Was on board of the Fideliter at the time of the collision, a little past Trial Island; they appeared to be approaching nearly end on; I stood opposite the point of collision; saw lights but did not know what they were; I heard the Fideliter's whistle; the Alexandra blew one, we blew two more; we headed in towards shore and the Alexandra came right in to us; do not know the coast; cannot say where we were exactly; we turned in towards shore, but I don't know how much; remember the collision; if the Alexandra had kept out she must have passed us; she must have come in nearer shore; am a landsman; if she had kept her course when I first saw her she would have passed us.

Cross-examined—[By models] they came together so; I cannot tell whether she came direct at a right angle; I saw her bow right opposite me; they must have gone nearly at a right angle when they met.

William Andeau—Was on the Fideliter at the time of the collision; I was sitting on a bale of hay under the pilot house; I know Clover Point; the Engineer was sitting near me; I saw a steamer at a distance of about a mile ahead a very little on the starboard bow; the captain said it must be the Alexandra; I know the light colors of the smoke; after that the Alexandra steamed dead ahead; I saw the Alexandra's lights quite plain; I cannot say the number of the lights; I had my head towards the stern of the Fideliter; I heard the captain tell the man at the wheel to put the helm aport; a minute or two after some one asked the captain if we were not too near the shore; the captain said, "Oh no, we have plenty of room"; at that time we were about 300 yards from the point of land—that is Clover Point—a little before coming to it; I thought we should weather the point about 100 yards from shore; the Alexandra was hid from me by the cook house; a minute or so after this the Fideliter blew a long whistle; she did it a second and third time; the moment the Fideliter ceased whistling the Alexandra took it up and whistled; the Alexandra had ceased about a moment and I saw her bows right upon us; I immediately jumped on to the rail of the Alexandra, as I was under the impression we would sink; I looked back and I thought the Fideliter had righted, and jumped back again; I thought her decks were under water, and I returned to the Alexandra again; [showed by models the position when he first saw the Alexandra]; she was slightly on the starboard bow, then she was dead ahead for some considerable distance; the Fideliter blew three or four times or more before the collision; [showed position of collision]; came round the Horn; has been across the Atlantic two or three times, and been to Australia; has been on accidents before on steamers.

Cross-examined—Is sure of the order to port, but don't know if it was carried into effect; when the captain ordered to port I did not see the Alexandra in consequence of my position; she was right into our bows before I saw her; I cannot say if the Fideliter was going ahead at the time; swear she struck the Fideliter, and not the Fideliter the Alexandra (by models).

Arthur Tod, sworn—Was on board the Fideliter the night of the accident; when I first saw the Alexandra we were not round Clover Point but had rounded Trial Island; I was standing on some hay below the capstan; I saw the light and asked Captain McCulloch what boat it was; I went down to the deck and saw the Alexandra coming nearer and nearer, but did not think there was any danger because we saw her so plain and I stood till she struck; we were sailing pretty near to the coast; I recollect when she struck; just before they struck I heard the captain tell the man at the wheel to port; just before we struck she made as if she was going across our bows; she was on my left all the time; the Alexandra was running towards the land; if she had kept on her course when she struck the Fideliter she would have run high and dry on land.

Cross-examined—We were keeping right along; I cannot say if we were heading towards the land; she would have run ashore had she gone on when she struck us, but we would not (showed position and direction in which the ships were approaching).

Mr. Ring altered position, and suggested to witness.

Mr. Wood objected, but had not heard enough to know what Mr. Ring intended to ask.

Witness again illustrated. The Fideliter whistled first.

James Brown, sworn—Was on the Fideliter the night of the collision; was carpenter; half way between Trial Island and Clover Point, a short time after rounding Trial Island, I was at the wheel, and saw the Alexandra; was steering towards Victoria; was 300 or 400 yards from Clover Point; first I saw two lights, a red one and a white one; afterwards I saw three lights, green, white and red; she was coming directly towards us; don't know how far she was off; after seeing her coming I ported the helm; we were then at Clover Point; before we reached Clover Point nothing particular was done; [shown points on the map]; when we were at Clover Point the Alexandra was rather more than half way towards Finlayson Point (pointed on map); when we ported the helm we went towards shore; [the relative positions of the two vessels after rounding Clover Point, after continuing to port, and when they collided were then given]; just before the collision I heard a bell ring on board the Alexandra; McCulloch said, after we struck, "push her ashore, we are sinking," and the Alexandra backed; at the time of the collision we were heading direct to the land, about 400 yards off; the helm was then and had been for some time before hard aport; when I put the helm hard aport the Alexander if she had kept her other course would have passed the Fideliter safely; when we ported she also turned towards the land, and the nearer we ran to the land the more she turned in also; the Alexandra whistled once just before the collision; there was also whistling from the Fideliter; the Fideliter began to whistle at Clover Point immediately after the captain gave the order to port the helm; the whistle began at Clover point and was blown three times; cannot say how long the last was before the collision; when the Alexandra struck a white and a green light were visible.

Cross-examined—I ported from the Captain's orders; he said "port the helm," and no other words by the captain, and I replied port it is; I ported "hard aport" some short time after by order of Captain McCulloch; these were the only two orders; when I ported first at Clover Point I saw three lights coming out of harbor; I saw a red and white and then the red and white and green, and afterwards lost the red light, and did not again afterwards see the red light; after I saw the three lights and before I ported, I don't remember if the red light disappeared; it disappeared just before the collision; I first saw them full a little before coming to Clover Point, and I continued to see them full till I got to Clover Point; [then showed where, when he was at Clover Point, the Alexandra was—viz., off the monument]

Question. Do you know the port light cannot be seen across the bow?

Answer. Yes.

I cannot say if it was 5, 10 or 15 minutes, or how long after first sighting Alexandra till collision; cannot tell whether it was one or ten minutes; immediately after the helm was put hard aport the collision took place; the order hard aport was not immediately after the order to port; I don't know the time exactly; I cannot say if it was a minute or more or less; I don't know how many times I heard the bell on the Alexandra; I did hear it once immediately before the collision.

Re-examined—I obeyed the orders of the captain; I did port and hard aport when ordered; I did not put the helm aport before he ordered it; after the order to hard aport and just before the collision the red light disappeared.

Dennis Coffay, sworn—I was the boatswain of the Fideliter and came from England in her; remember the night of the collision; after rounding Trial Island I observed lights on the port bow; first I saw one light and two or three minutes afterwards I saw three lights; I was forward on the forecastle; when I first saw the three lights we were this side of Clover Point; after rounding Clover Point we were keeping in and the Alexandra was coming on, her head on our port side, and I remarked to the steward we were keeping well away from that vessel; the Fideliter came in towards the shore; I did not keep my eyes fixed on the vessel all the time.

Cross-examined—I was particular to look out but was not so ordered; I heard no orders given; I am not very well acquainted with the coast; I generally get the courses from the master to steer by; when I saw the three lights of the Alexandra it was a little on this side of Clover Point.

By the Court—I dont know the distances between Trial Island and Victoria Harbor; I first saw a white masthead, and then a red and a green; I cannot say where we were then off; just at Henley's place I saw the three lights; I thought from the position we had ported; I saw the lights till she came nearly on board of us, but then I could not see all three of them as she was just on us; from the time I first saw the Alexandra it might be six or seven minutes till the collision; could not say if it was ten minutes it was more than one and not so much as ten; it was six or seven as near as I could guess; I cannot say when our lights were lighted, but I asked the steward if they were lighted, and he said they were all right; I never said they were not lit nor never told anyone so; I asked the Cook and he said the lights were all right; I know Thomas Burnes well; shortly after the collision and at the Metropolitan I did not tell Thomas Burnes the lights were not lit, and I don't believe I was ever in his company in any saloon.

Re-examined—I could not tell Burnes so; when I asked the cook it was just getting dark, I have been two years on the Fideliter next September; the lights are usually lighted when it gets dark.

By the Court—The lights are a green, a red and a white; the lamps of the Fideliter can be seen at a pretty good distance; the lamps look about the usual size.

Charles Moss—I was steward on board the Fideliter on the night of the accident; I know her lights were up at the usual time, and before ever we sighted the Alexandra they were in the right position; red was on the port side; they were fixed in the usual place; the wheel-house was between them; the lights could be seen across the bows; saw three lights in the approaching steamer I would admit lights being in the right place if they were lighted at all; the first I saw was a glimmering light, a red one, and in a short time I saw three gradually coming on, and they seemed on the port side; the boatswain commenced to tell me the rules of the harbor, and at last said "My God, she's coming right into us," at that time we were heading towards shore, and it's my opinion that if she had missed us at the speed she was going she must have gone ashore; the Alexandra as she came on kept turning in as if she would follow us whether or no; the boatswain said he could not have ported his helm; I was forward within ten feet of where she came into us looking over the port bow; I thought we were doing all we could to keep out of her way, and she was doing all she could to come into us; the vessels struck, they remained together some time; they separated after awhile; I heard whistling long before the collision; it commenced on the Fideliter; it was about three or four minutes before collision.

Cross-examined—Saw three lights for some time; don't know how long, but we were a good way off; the lights appeared to be on the the port side; we seemed to be gradually hugging up to the shore, and the Alexandra appeared to be further out to sea than we were; I saw no lights changed; I saw the red and green and white light; before we appeared to hug the shore I saw the three lights; I call hugging the shore keeping as close as we can; I know there was something dark, but don't know whether it was bluff or trees; don't know how far off shore we were; heard no orders given as to the working of the ship, as I was too far forward; the boatswain said "he cannot have ported his helm by the way he is coming;" I think they were going a good pace, about eight or ten knots; did not see her engines moving; I don't remember which way our head was; had we not been struck; I don't know if we would have gone ashore or not; it occurred in the bay near Henley's.

Re-examined—I could not see through the Alexandra, so did not know if her engines were going or not.

HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great blessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion with these Pills at hand.

TELEGRAPHIC.

LATER EASTERN NEWS.

[Telegram to the Columbian.]

FORTRESS MONROE, August 5.—The cotton factory at Petersburg, Va., had been destroyed by fire. Loss, $20,000; insured.

NEW ORLEANS, August 5—The Galveston *Bulletin* of the 5th says: Yellow fever is prevailing to a considerable extent at Havanna. Proportion of deaths greater than usual.

Army worm threatening entire destruction to cotton crops in Galveston County, Texas.

The *Herald's* special says the call for a national convention composed of three delegates from each Congressional District in the country, to devise means for securing voting privilege, was signed in Eastern Virginia.

NEW YORK, August 6—The *Times'* London correspondent says: The news from America is likely to make some stir across the channel. It is believed that some thousands of Southern soldiers are already in the army of Maximilian, and that the Emperor Napoleon finding such a body of recruits at hand will not be under the necessity of sending reinforcements across the Atlantic.

John C. Breckinridge was expected in London, July 28th, on his way to Paris, accompanied by several Confederate officers, who, it is supposed, will volunteer for Mexico, sure of being joined by numbers of their late comrades.

WASHINGTON, August 7—Secretary of Interior and Commissioner of Indian Bureau, with other officials, have under advisement a plan of adjusting the relations with tribes in New Mexico.

NEW YORK, August 9—The *Times'* special says the President is in good health. A military commission is trying cases of prisoners consigned to the old capitol prison.

Special Dispatch to the "Colonist."

NEW YORK, August 10—The *Commercial* says that Mrs. Douglas' appeal to the President for the pardon of H. V. Johnson, who was on the ticket with her husband for the Vice-Presidency, has proved successful

WASHINGTON, August 10—Mosby was arrested last night in Alexandra, and is still in custody.

FINANCIAL CRISIS.

NEW YORK, August 15—Great excitement prevails in financial circles to-day. A number of failures are reported, among them that of Graham & Co and Ketchum & Son. The latter firm have over issued gold checks to the amount of two million dollars, and left for parts unknown.

NEW YORK, 14th—The *Herald's* Richmond correspondent says: Six weeks or more ago General Lee left this city and proceeded to the village of Cartersville, Buckingham Co., on south of James river [40 miles from Richmond], where he is living in seclusion, scarcely answering the myriads of letters addressed to him. He resides in a small cottage, the property of Mrs. Cox, adjacent and belonging to which are some four acres of land which he finds some recreation in cultivating. General Lee is unusually retired. It is possible he will rarely, if ever, emerge from his seclusion.

NEW YORK, August 14th—The *Herald's* special dispatch says grave difficulties are arising between the citizens of Mecklenburg County, Virginia, and the Freedmen heretofore living as slaves.

NEW YORK, August 8th.—The *Herald's* Richmond correspondent says: Evil Spirits have been let loose upon the United States since the unceremonious and justly deserved fate of the late election was pronounced. Joining men and citizens together to waylay and assault every colored man they meet; while older heads universally adopt the plan of fighting our soldiers, and at the same time hissing out their bitterest denunciations on the negro. The most stringent orders of General Terry are inadequate to meet the growing abuse.

NEW YORK, Aug. 10—The *Post's* Washington special correspondent says: Advices received by State Department to-day from the American Consul at Malta, state that the cholera was raging there to a fearful extent. Communication with the neighboring Islands is suspended.

NEW YORK, Aug. 14—Provisional Governor Wm. Marvin of Florida issued a proclamation to the people of that State on Aug 31, informing them of the necessary steps to be taken to restore civil government and the days for the election of delegates to the Convention. The time for its assemblage has not been decided upon. That will be named as soon as the proper time shall have been given for the people to take the oath of allegiance.

CALIFORNIA NEWS.

(From the Columbian.)

SAN FRANCISCO, August 23, 3 p. m.—Eastern line is down between here and Julesburg. It will probably be in working order to Omaha this evening or to-morrow morning.

The Collector of Customs has received a communication from the Assistant Secretary of State, covering dispatch from U. S. Consul at Port Mahon, dated May 31st, in which he says that he has learned from various sources that the Rusian plague is extending westward more extensively than is generally supposed. The Consul suggests that all vessels arriving in the United States from Russian and Turkish ports be subjected to a rigid scrutiny before landing, especially all articles of clothing, &c. The disease is said to be the same as that which visited London over a century ago. Major Coon has taken the necessary precautions to guard against the introduction of the Russian plague, and all other infectious diseases in this city; though so far as the plague is concerned little precaution is necessary, as further investigations have shown that the first reports regarding this disease were greatly exaggerated. The health officer has instructed the pilots to keep close watch for all diseases of an infectious character in vessels which they board, and as for vessels from Russia, there is not on the average more than one arrival in six months to this port.

William Millan, while driving from the Mission last evening, was thrown out of his wagon and very seriously injured. His thigh bone was fractured in several places, and protruded through the flesh.

John McCarthy has been arrested for falsely personating a police officer, and for assault and battery.

The deposits at the mint amount to 673 deposits, making 19,000 ounces, all in dust, equal to about $285,000. A large portion of it came from the northern mines by the Sierra Nevada.

The U. S. steamer Saginaw arrived down from Mare Island this afternoon, and has anchored off Pacific street wharf.

SAN FRANCISCO, August 24.—Thos. G Loehrs, late clerk of State Prison, was arrested yesterday p. m., at Gautier House, where he has been concealed since his flight, when he first confessed his guilt to Gov. Machin. He pretended to make a clean breast of everything, and with tears and protestations declared the statement then made was full and correct in every particular. From circumstances which have come to light it seems that Loehrs must be one of the most confirmed hypocritical villains that ever lived.

Many of the friends and relatives of Captain DeWolf, of the Brother Jonathan, have recognised the man described in last night's *Bulletin* as having been found by Indians and burried by Lieut. Tuttle, 4 or 5 miles off Trinidad, as Captain DeWolf's body, beyond a reasonable doubt.—A man named Fitzpatrick, belonging to S. F. and Alameda R. R, fell from the platform of a car and was killed. Thos. Nesbit, brother of the late Jas. Nesbit, who was lost on the Jonathan, has received a letter from a gentleman at Crescent City, notifying him that among papers found upon the body of Jas. Nesbit was a will, written in lead pencil, and evidently written after the ship had struck. The will makes his brother sole executor. This is an unusual instance of self-possession and thoughtfulness in the hour of deadly peril.

A complimentary benefit has been tendered to Thomas Maguire by leading citizens. Mr. Maguire has lost about $20,000 on the Italian Opera season, which will close to-morrow evening.

MARKETS.

Legal Tenders, 74 @ 74¼.
Candles, Knapps, 20c.

There has been a speculative movement in chemical materials used for mining purposes, and they have advanced within the last few days. 100 tons of blue vitriol have been sold, and the price has risen from 12½c. to 16c. It is supposed that the Nevada and Reese river quartz mills will require 500 tons this fall, which will take about all that is in the market, and what is on the way here.

Coal Oil—Sales to arrive, $1 25.
Rum—New England, about $1 50.
Sugar—Brisk, at full prices.
Flour continues dull; $5 50 @ $5 75 for extra; $5 25 @ $5 50, superfine.
Wheat—Receipts light, $1 65@$1 70.
Barley—$1 @ $1 02.
Oats—Dull, $1 50 @ $1 55. Sales, 530 sacks.
Hay—$15 per ton.
Wool—12c. @ 13½c.
Sailed, August 24—Bark Vidette, for Puget Sound.

JACKSONVILLE, August 24,—The following is an extract from a letter to the *Oregon Sentinel*: Found near Crescent City, from August 17th to 20th: No. 42, a white woman about 45 years old, 5 ft. 8 in., rather fleshy, light brown hair, long, mixed with grey; dark woollen dress, bottom embroidered with red, black buttons, gold ring, mended with a piece of silver. No. 43, a white man, 35 to 40 years old, 5 ft. 4 in.; hair on face black, good teeth; had on purple pants, pegged boots, half-soled, one gold hunting watch with vest chain attached, 1 ladies' gold watch, with guard chain, 1 silver watch, 4 trunk checks, Nos. 5, 34, 81 and 84. Coin in pocket amounting to $20,-75c.; had on also a black vest and white overshirt.

FOUND FOUR MILES BELOW TRINIDAD—The body of Isaac Weil, brother of David Weil, Portland. Also a young lady, supposed to be Miss N. Shiryser. Found at Gold Bluffs, a white man 6 ft. 2 in., weight about 180.—The supposed killing of a man near Klamath River, who came ashore on a piece of the Brother Jonatha, is untrue.

CRESCENT CITY, August 20.—I was witness to the finding of a body of one of the passengers of the Brother Jonathan on the 15th inst., near Chetkoe Creek, Oregon, a few miles above the boundary line. He was a full-sized athletic man, dark red hair, goatee and whiskers under chin, features large, round and rather heavy; wore only a knit pair of drawers and pants and a life-preserver. In his pockets we found a comb, a ten collar piece and two small papers, much worn and torn; we also took from his finger a gold ring, with the device of a double heart, and inside engraved the name S. Irwin. One of the papers was an invoice of mens' and womens' clothing on board the steamer Golden Rule, with the price of each article. The other paper contained the following: "John B. Ferguson, N. E. corner of Howard and Thompson streets, Philadelphia, to John Irwin"—the item for which Ferguson was indebted to Irwin did not appear—were torn off. (Signed) SHERMAN DAY,
57, Montgomery Block,
San Francisco.

THE ATLANTIC TELEGRAPH.

[From the Columbian.]

NEW YORK, Aug. 7.—A dispatch from Queenstown, July 27th, says the Great Eastern was this morning 300 miles out, paying out cable successfully.

FARTHER POINT, Aug. 7.—The Damascus, from Liverpool 27th, and Londonderry 28th, has arrived. The Great Eastern was about 450 miles out, and had paid out 500 miles of cable. Signals good at that time.

NEW YORK, Aug. 9.—The steamer Etna from Liverpool 30th July, has arrived; 750 miles of Atlantic cable paid out when insulation was lost, cause unknown.

Political news unimportant.

LONDON, Aug. 4.—Communication with the Great Eastern remains suspended, nothing heard from her since noon 2nd Atlantic telegraph shares nominally at 2½ @ 3. The insurance of it had advanced to 50 and 60 guineas. The latest dispatches from the Great Eastern, dated 2nd, report all going well and 1,200 miles cable paid out. On Wednesday evening the following was received:—

VALENTIA, Aug. 2nd, 9 p. m.—Signals from the Great Eastern became unintelligible at noon, no communication has been had with the ship since, cause unknown.

HEART'S CONTENT, Aug. 14.—A vessel just from Cardiff, reports that she saw the Great Eastern and the British ship-of-war Terrible, on the 3rd. It is reported the cable parted Aug. 2nd., and was buoyed up in latitude 51 deg. 40 min., longitude 39 deg. 10. min.

MEXICO.

(Special Dispatches to the Columbian.)

NEW YORK, Aug. 6.—The *Times'* London correspondent says, the news from America is likely to make some stir across the channel. It is believed here that some thousands of Southern soldiers are already in the army of Maximilian, and that the Emperor Napoleon finding such a body of recruits at hand, will not be under the necessity of sending reinforcements across the Atlantic

John C. Breckinridge was expected in London, July 28th, on his way to Paris, accompanied by several Confederate officers, whom it is supposed will volunteer for Mexico, sure of being joined by numbers of their late comrades.

WASHINGTON, Aug. 7.—The Secretary of the Interior and Commissioner of the Indian Bureau, with other officials, have under advisement a plan of adjusting the relations with the tribes in New Mexico. The *Republic* says of the Mexican force: It is large and efficient. Holds undisputed possession of a great portion of the territory of the country, while guerrilla bands roam through nearly every section, still giving infinite trouble.

HOLLOWAY'S PILLS AND OINTMENT—Deranged Stomach, Sick Headache.—Our comfort, happiness, and security depend on the knowledge that most diseases originate from apparently a trifling beginning, and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on disordered digestion. They ward off, likewise, the torturing sick headache. The Ointment should be well rubbed, twice daily, over the stomach, liver and bowels; to them it penetrates, and, aided by the Pills, immediately works a revolution and establishes perfect digestion.

BRITISH COLUMBIA.

ARRIVAL OF TREASURE.

The steamer Enterprise arrived on Saturday afternoon with nearly sixty passengers and a large amount of treasure, including $118,337 for the Bank of British Columbia and nearly 100,000 in the hands of shareholders in the celebrated Ericsson claim.

CARIBOO.

Several old Cariboorites are down, among whom are the Ericsson brothers, Mr. Nelson, the foremen of the Company, Mr. Harper, and Mr. Taggart. They brought down with them to New Westminster about $100,000 in gold, which they left to be assayed at the Government Office. This famous claim is said to be nearly worked out, although good wages may yet be obtained from it. Others of the returned miners complain of the hard times at the mines. The weather was very pleasant and favorable for mining operations. An exploring party was to leave Cameronton on the 21st to prospect in the direction of Bear River. The Colonial Secretary was entertained by the miners at a splendid dinner in the London and Paris Hotel during his visit to Williams Creek. All the "delicacies of the season" were provided at the moderate charge of $36 per ticket!

LATE EUROPEAN ITEMS.

We clip the following from the London correspondence of the New York *Sunday Times*, of July 16th. Although the so-called foreign correspondence is nothing more than a selection of paragraphs from English papers, it always contains a variety of interesting items of intelligence.

Parliament is virtually over. The session is at an end. There will be no ministerial dinner this time. On Thursday next the usual proclamation will be issued by the Queen with the advice of the Privy Council, which announces that she has given orders to the Lord Chancellor of Great Britain and the Lord Chancellor of Ireland to issue out-writs in due form and according to law, for calling a new Parliament, and that the writs are to be returnable on a certain day. On the 17th July, 1837, Parliament was prorogued and dissolved on the same day. And on the 23d July, 1847, the Queen, in proroguing Parliament, announced her intention to immediately dissolve it, and it was accordingly dissolved by proclamation on the same day, and the writs were dispatched by that evening's post. The same course was again adopted on the 21st March, 1857, and will probably be followed this year. As for the candidates at the coming election, I notice that the list of those for the constituencies of England and Wales with their politics show, as far as they are at present known, that there are 262 liberals and 204 conservatives offering themselves.

The elections in France cannot be very pleasant to the Emperor. On every occasion, now, the people elect a foe to the government, and this, too, in the face of all the official pressure, and even threats, which petty tyranny on the spot can conceive and execute.

Mr. Gavan Duffy, who gave so much trouble to the Irish government in 1848, and subsequently became a member of the Imperial Parliament, has got back. He returned from Australia after a residence there of ten years. In Victoria he held high office, which entitles him, like Mr. D'Israeli at home, to a handsome retiring pension, which he is now enjoying. He strongly advises Irishmen not to emigrate to a foreign country, by which he means the United States.

We had a terrible fire here late on last Sunday night. It occurred in the vicinity of Brook street, Holborn, adjacent to Furnival's Inn, and raged with terrific fury for several hours, destroying in its career the whole of the extensive warehouses of Meeking & Co., upholsterers, besides doing very serious damage to twenty other houses and buildings in the neighborhood. Messrs. Meeking's establishment comprised eight houses in Brook street and three houses in Holborn, the whole communicating with one another on every floor. The premises were three and four stories high, and extending along nearly one-half the length of Brook street.

Last Thursday morning one of the finest reviews of regular troops held of late years in London, took place in Hyde Park. The troops engaged were the Grenadier, the Coldstream, and the Scots Fusileer Guards, the Second Life Guards the Royal Horse Guard, and seven batteries of Royal Artillery. The Prince of Wales, in the dress of the 10th Hussars, was present.

A state ball, by royal command, was given on Tuesday evening, at Buckingham Palace to which a party of 1,700 was invited. Her Majesty was not present. The Royal Body Guard of the Yeoman of the Guard was on duty at the palace. Princess Helena and Princess Louise arrived at Buckingham Palace from Windsor Castle in the afternoon. The Duke and Duchess of Brabant also arrived at the palace from Windsor Castle. The Prince of Wales arrived and also entered into the amusements.

On the 24th, Gen. and Mrs. Tom Thumb with their infant daughter, and accompanied by Commodore Nutt and Minnie Warren, arrived at Windsor Castle for the purpose of giving a performance before the members of the Royal Family. On reaching the castle they were conducted to one of the private state apartments, known as the "Rubens" room, on the north side of the palace, and performed there.

A very serious election riot took place in Nottingham, on the 26th in which the "lambs" showed their true historic character. They broke the hustings from which Messrs Morley and Paget were to speak, afterwards set fire to it, and paraded the streets armed with bludgeons. The police were useless, and the military were sent for from Sheffield.

THE BROTHER JONATHAN.

The *Alta* gives the following additional particulars of the great calamity:

STATEMENT OF DAVID FARRELL, STEERAGE STEWARD.

On Saturday before the wreck, the wind commenced blowing fearfully, and continued until the wreck and after. On Sunday at 12 o'clock, the captain took the sun and got our position. Finding the storm was likely to continue, he rounded to with the hope of making Crescent City, where he intended to lay at anchor until the storm abated. After we rounded to, we ran for Crescent City, I suppose for thirty or forty minutes, when the ship struck. She struck very hard, apparently about half way between her stem and foremast. She did not appear to strike her stem; but raised on the swell and settled directly upon the rock. The next sea that struck her carried her as far on to the rock as her foremast, Her bottom was badly torn to pieces, and her foremast dropped through until stopped by the yard arm. She remained swinging at the mercy of the waves until she sunk. The officers were very cool, and were doing all in their power to save the lives of the passengers, who were very calm under the circumstances.

When Capt. DeWolf found the ship was bound to sink, he walked forward and coolly said, 'All hands aft and try to save yourselves.' The first boat that was lowered was the forward boat on the port side, and was swamped; its crew were swimming around her. When we last saw her there was one man sitting astride her, and she was upside down. The next boat that was lowered was on the starboard side of the ship, directly astern of the wheel. This was under the the charge of Campbell, the second mate, and contained a large number of ladies, but was swamped before she was free of the davits; her stem was smashed in against the ships side. The first officer, Allen, hauled her passengers on board again. The captain, who was standing on the hurricane deck just aft the wheel-house, spoke to me, and told me to put the plugs into the boat swinging at the starboard davits, just astern of the last that had been swamped. I did so, and he then told me to remain in her for the purpose of keeping the men out of her, and told me to take as many women as would go. I did so.

John P. Hensley brought two women and tried to get them into the boat, but could not succeed; they begged him to let them go, which he did. Seeing that the women would not get in, I said: 'John, you had better get in yourself, but he said he would not; that he would stay and assist others in saving their lives. I then said: 'John, if you will not go, give me a bucket' He leaped from the hurricane to the upper or pilot deck, and gave me one of the fire-buckets that were in a rack on the wheel-house. I tried again to induce him to come, but he would not, saying that there was already enough in the boat. Allen then commenced lowering us down. John Hensley was the last man I spoke to, and his last words to me were: 'Keep cool and save yourselves—good by!' When we struck the water the ship rolled over on us and nearly sunk us, but we escaped with only the loss of all our starboard thole-pins. We had hard work to clear the ship, which we could only do by pushing the boat around under the ship's stem. In this manner we managed to get steerage way and the use of our oars. We started immediately for shore. We were running quartering with the waves, which broke over us on nearly every crest, at times nearly filling the boat, and had it not been for the bucket that was given us by our brave-hearted shipmate, John Hensley, there would probably never have been a soul saved to give tidings of the terrible disaster.

After we left the ship, there were two guns fired; we looked back at the ship and saw her smokestacks go by the board. We then went down into the trough of the sea so far as to make it impossible to see the ship. When we arose on the next crest, I saw the signal of distress flying at the mizzenmast head. We were again let down into the trough of the sea, and when we came up again, the ship had entirely disappeared. I think the waves drove her over the rocks, and that she went down stem first. We were about three hours in getting to Crescent City, I should think. The water was very cold, and I think it would have not been possible for a man to have lived more than ten hours had any tried to save themselves by means of life preservers or drift of any kind where they would have been exposed to the water. The people of Crescent City treated us kindly; and there were three or four boats, including the one in which we were saved, dispatched at once for the wreck, but after getting outside a short distance, they were forced to return, as the seas ran so high as to make it impossible for them to go further.

CHINA AND BOMBAY.

By the arrival of the bark Mermaid, 31 days from Shanghai, we have files of papers from that city to July 20th and Bombay advices to May 23d.

Chinese news presents no features of interest. The papers were calling attention to the necessity of preparing for the expected advent of the Russian plague by cleansing the city.

The Bombay *Gazette* says losses in that city, consequent upon collapse of cotton bubble, amounts to not less than one hundred and fifty million dollars, and ruin is wide-spread and overwhelming

Advices from Shanghai state that the American steamer Fox Skin went ashore at the mouth of the river on the night of the 13th July, and was a total loss. Officers and crew saved.

HOLLOWAY'S PILLS AND OINTMENT—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed, and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S PILLS AND OINTMENT.—Influenza, Colds.—In diseases of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

PICKLES, SAUCES, JAMS, &c
(FREE FROM ADULTERATION,)
MANUFACTURED BY
CROSSE & BLACKWELL,
PURVEYORS TO THE QUEEN,
SOHO SQUARE, LONDON.

CROSSE & BLACKWELL'S

The Infallible Remedy.

Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humours.—Scald Head and Skin Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment if well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Gravel.

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brought about in six months by any other treatment. In bad cases if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheezing will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of their infants whenever there is any hoarseness, tightness, or other affection of breathing.

Bad Legs, Bad Breasts.—Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, soon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism.

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases:

Bad Legs
Bad Breasts
Burns
Bunions
Bite of Mosquitoes and Sand-Flies
Coco-bay
Chiego-foot
Chilblains
Chapped Hands
Corns (Soft)
Cancers
Contracted and Stiff Joints
Elephantiasis
Fistulas
Gout
Glandular Swellings
Lumbago
Piles
Rheumatism
Scalds
Sore Nipples
Sore-throats
Skin-diseases
Scurvy
Sore-heads
Tumours
Ulcers
Wounds
Yaws

Sold at the establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world at the following prices:—1s. 1½d.; 2s. 9d.; 4s. 6d.; 11s., 22s., and 33s. each Pot.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. ntsoc

BENSON'S WATCHES & CLOCKS

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be finished with more perfect or carefully adjusted mechanism.—*Times*, June 11, 1862.

"A triumph of ingenuity.—*Telegraph*, March 31, 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen."—*Standard*, June 7, 1862.

"One of them is of great beauty, and if the English trade will only follow up with the same spirit and success this first attempt to compete with foreign houses in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The ornaments are of the finest quality, while the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8th, 1862.

WATCHES, adapted for every class, climate and country, wholesale and retail Chronometer, Duplex, Lever, Horizontal, Vertical, Repeating, Centre, Seconds, Keyless, Astronomical, Reversible, and Chronograph, from 200 guineas to 2 guineas each.

DR. RADWAY'S PILLS.

ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
NO STRAINING.
NO GRIPING.
NO TENESMUS.
NO PILES.

NO FALSE CALLS TO THE WATER CLOSET.

BUT A BRISK AND THOROUGH EVACUATION FROM THE BOWELS IS ALWAYS SECURED.

Newly Discovered Principles in Purgatives.

Dr. Radway's Pills are the best Purgative Pills in the world, and the only Vegetable Substitute for Calomel or Mercury ever discovered. They are composed of VEGETABLE EXTRACTS FROM ROOTS, HERBS, PLANTS, GUMS, SEEDS, FLOWERS, BARKS, FRUITS AND WEEDS, PREPARED IN VACUO.

One grain of the extract of the medicinal properties of Radway's Pills, possess a greater curative power over disease than a thousand of the crude and inert materials that enter into all other pills in use. These Pills are compounded of the active medicinal properties of the Roots, Herbs, Plants, Flowers, Gums, &c. of which they are composed. One dose will prove their superiority to all other pills. They

PURGE, CLEANSE, PURIFY, HEAL,
SOOTHE, CALM, STRENGTHEN,
INVIGORATE,

And REGULATE THE SYSTEM.

Their Great Combinations.

They are Aperient, Tonic, Laxative, Alterative, Stimulant Counter Irritant, Sudorific.

AS EVACUANTS,

They are more certain and thorough than the Drastic Pills of Aloes, or Croton or Harlem Oil, or Elaterium; and more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

IN SUDDEN ATTACKS OF

Inflammation of the Bowels or Stomach, Liver, Spleen, Pancreas or Kidneys, Bilious Cholic or Bilious Fever, Erysipelas, Congestive Fever, Small Pox, Measles, or Scarlet Fever, SIX TO EIGHT OF DR. RADWAY'S REGULATING PILLS WILL PURGE THESE DISEASES FROM THE SYSTEM IN SIX HOURS.

One dose of Dr. Radway's Pills will cleanse the intestinal canal, and purge from the bowels all offending and retained humors, as thoroughly as lobelia or the best approved emetic will cleanse the stomach, without producing inflammation, irritation, weakness,

STRAINING,

or other unpleasant symptoms. There are no other purgative pills in the world that will secure this desideratum.

BETTER THAN CALOMEL OR BLUE PILL.
BETTER THAN CALOMEL OR BLUE PILL.
BETTER THAN CALOMEL OR BLUE PILL.

AS ALTERATIVES,

They exercise a more powerful influence over the liver and its secretions than calomel, mercury, blue pill, hence their importance in cases of Liver Complaints and Spleen Difficulties, Jaundice, Dyspepsia, Bilious attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superior to quinine. Their influence extends over the entire system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

DR. RADWAY'S PILLS.

ONE TO SIX BOXES WILL CURE

Costiveness,
Constipation,
Congestion,
Heart Disease,
Diseases of Kidney & Bladder
Disease of Liver,
Biliousness,
Typhus Fever,
Ship Fever,
Malign't Fever,
Loss of Appetite,
Indigestion,
Inflammation,
Palpitations,
Scarlet Fever,
Bilious Fever,
Jaundice,
Congst'e Fever,
Sleepiness,
Gen'l Debility,
Dimness of Sight
Fits,
Lown's of Spirits
Quinsey,
Dyspepsia,
Measles,
Melancholy,
Hysterics,
Amenorrhœa,
Fainting,
Dizziness,
Retention of Urine,
Rush of Blood to the Head,
Obstructions,
Dropsy,
Acute Erysipels,
Headache,
Bad Breath,
Inflama'n of the Intestines,
Apoplexy,
Enlargement of the Spleen,
Scurvy,
Whoop'g Cough
Worms,
Bad Dreams,
Pleurisy.

If afflicted with either of the above named diseases, "one to six" boxes of Dr. Radway's Pills will cure you. By taking a few doses of the common Drastic Pills—that gripe and pinch you when they operate—you may obtain temporary relief; but if you stop taking these imperfect pills for a week or a month, your old complaint returns. Now, this is not the method of cure indicated by Dr. Radway's Pills. They make a perfect cure, and the patient will not require any more medicine.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of Inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.

THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with Piles, may rely on a positive cure by their use.

COATED WITH GUM.
COATED WITH GUM.
COATED WITH GUM.

Dr. Radway's Pills are elegantly Coated with Gum, are free from taste or smell, can be taken at all times and on all occasions. No danger will result from colds, if exposed to wet or damp weather after taking these pills.

SIX OF RADWAY'S PILLS

Have secured a vigorous evacuation, in severe cases of Inflammation of the Bowels, Paralysis, &c., after Croton Oil, Harlem Oil, injections and other means completely failed. A dose of Radway's Pills will remove all obstructions, and secure a free passage. Directions for use are inside each box. Price per box, 25 cents. Sold by Druggists, Medicine Dealers, and Storekeepers.

N. B.—Every Agent has been furnished with *fresh* and new made Pills. As each box is enclosed with a Steel Engraved Label, take none others.

RADWAY & CO.
87 Maiden Lane, New York.

HOLLOWAY'S PILLS.—A Remedy for Bilious and Liver Complaints.—Those who suffer from bile and liver complaints should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, remove all impurities, give a healthy action to the liver, and strengthen the stomach. If bilious attacks be allowed to continue without using such a preventative, more serious casualties may arise, and the sufferer be consigned to a bed of sickness. Holloway's Pills are an extraordinary remedy acting immediately in the removal of acidity of the stomach, indigestion, debility, and nausea preparing the food thoroughly for assimilation rendering each tributary organ perfect in its function, and stimulating the kidneys

HOLLOWAY'S PILLS for Indigestion, Stomach and Liver Complaints.—Persons suffering from any derangement of the Liver, Stomach, or the Organs of Digestion, should have recourse to Holloway's Pills, as there is no Medicine known that acts on these particular complaints with such certain success. They strengthen the tone of the Stomach, increase the Appetite, purify the Blood, and correct depraved Secretions. In Bowel complaints they remove their primary cause, and soon restore the Patient to sound health. Nervous or sick headaches, and depression of spirits, may be speedily relieved by a course of these Pills. They are composed of rare balsams, without the admixture of a grain of Mercury, or any noxious substance, and are as safe as they are efficacious.

HOLLOWAY'S OINTMENT AND PILLS, a certain remedy for diseases of the skin—Ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

HOLLOWAY' OINTMENT AND PILLS.—Fistulas, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

MEDICAL ASSISTANCE.

R.R.R.

RADWAY'S READY RELIEF.

THE GREAT EXTERNAL AND INTERNAL REMEDY,

STOPS THE MOST EXCRUCIATING PAIN IN A FEW MINUTES,

AND

RAPIDLY CURES THE PATIENT.

RADWAY'S READY RELIEF

Proves its superiority to all other Medicines at once.

ITS FIRST INDICATION

Is to relieve the sufferer of PAIN, no matter from what cause it may originate, or where it may be seated.

If in the Head, Face, or Throat;
If in the Back, Spine, or Shoulder;
If in the Arms, Breast, or Side;
If in the Joints, Limbs, or Muscles;
If in the Nerves, Teeth, or Ears;

Or in any other part of the body, its application to the part or parts where the pain exists will afford immediate relief.

IF SEIZED WITH PAIN

In the Stomach, Bowels, or Kidneys;
In the Bladder, Spleen, or Liver;
In the Teeth, Ears, or Throat;
In the Brain or Nervous System;

One teaspoonful of RADWAY'S READY RELIEF to a wineglass of water will, in a few minutes, restore the patient to ease and comfort.

If Lame, Crippled, or Bed-ridden;
If Palsied, Scalded, or Burned;
If Bruised, Wounded, or Cut;
If Strained, Injured, or Disabled;
If Sun Stroke, or seized with Fits;
If Weak in the Spine or Back;

RADWAY'S READY RELIEF

should be applied to the part or parts afflicted. It instantly relieves the patient from pain, and quickly heals, soothes, and strengthens the disabled parts. In all cases of Bites of Rabid Dogs, Reptiles, Stings of Poisonous Insects, the application of RADWAY'S READY RELIEF to the wound will prevent inflammation and mortification.

FEVER AND AGUE.

Persons exposed to the Malaria of Ague, or if seized with Chills and Fever, will find a positive Antidote and Cure in Radway's Ready Relief. Let two teaspoonsful of the Ready Relief, in a wineglass of water, be taken on getting out of bed in the morning, and however exposed to malaria you will escape.

WHEN SEIZED WITH

CHOLERA, or Diarrhœa, or Flux;
Dysentery, Cramps, and Spasms;
Bilious Cholic, or Gastritis;
Scarlet, Typhoid, or other Fevers;
Influenza, Coughs, or Colds;
Inflammation of the Stomach or Bowels;

RADWAY'S READY RELIEF

SHOULD BE TAKEN INTERNALLY.

One dose will stop the pain; its continued use will, in a few hours, cure the patient.

HOW IT CURES.

The secondary indication of RADWAY'S READY RELIEF is to cure the patient of the disease or malady that occasions the pain; this it accomplishes rapidly and radically. *So swift* is the patient transformed from pain, misery, weakness, and decrepitude, to the delightful enjoyment of health and strength, that patients frequently ascribe its talismanic power to the supernatural influence of enchantment.

RHEUMATISM, LUMBAGO, GOUT, NEURALGIA, TOOTH ACHE, CROUP, INFLUENZA, SORE THROAT, QUINZY, DIPTHERIA, HOARSENESS, BRONCHITIS, STIFF JOINTS, ENLARGED TENDONS, HEADACHE, (Sick or Nervous,) ASTHMA, or HARD BREATHING.

It is truly marvellous how quick RADWAY'S READY RELIEF cures the sufferers of these maladies. The poor, crippled, and pain-stricken Rheumatic has not to wait days before a change takes place, but in a few minutes derives ease and comfort.

LONDON TIMES.

Twenty Years of Sleepless Nights.

Wm. Sydney Myers, Esq., of Havana, Cuba, the correspondent of the London Times, suffered with Acute and Chronic Rheumatism for twenty-five years, and for twenty years he had not enjoyed one whole night's calm rest. He applied RADWAY'S READY RELIEF—it immediately gave him ease and secured him the first calm and undisturbed sleep during the twenty years. The continued use of the READY RELIEF cured him.

PREVENTION BETTER THAN CURE.

THERE IS NO OCCASION FOR SICKNESS.

When you first feel pain, then take a teaspoonful of the READY RELIEF, in water; or apply it to the parts where you feel the discomfort.

ALL MALIGNANT DISEASES

first give warning of their presence, and if met promptly before they become securely intrenched within the system, will be readily expelled.

SIGNS OF SICKNESS.

Headache, Pains in the Limbs—in the Stomach, Bowels, and Kidneys—Cold Chills, and Hot Flushes, Coated Tongue, Burning Skin, Nausea, Shivering, Dullness, Loss of Appetite, Restlessness, Giddiness, &c., &c., are premonitory symptoms of Malignant Diseases. One dose of the READY RELIEF is sufficient to break up and expel diseased action, and restore the patient to health.

IN THE ARMY.

Dysentery, Bilious Cholic, Flux, Yellow, Typhoid and Malarious Fever, Rheumatism, Small Pox, Diptheria, Letters from Medical Directors, Surgeons, and Military Officers endorse the importance of RADWAY'S READY RELIEF over all other medicinal remedies.

EIGHTH MAINE.

Eighth Maine regiment, Serg't C. P. Lord, writes that Radway's Ready Relief saved the regiment from death while quartered at Tybee Island, S. C., when working in the swamps, erecting fortifications. Every man seized with Typhoid and other Fevers, Fever and Ague, Diarrhœa, Dysentery, Rheumatism, was cured by the use of the Ready Relief.

CAUTION.

In all cases ask for Radway's Ready Relief. Take no other. See that the signature of Radway & Co. is on the outside label of each bottle. Every agent is supplied with a new and fresh stock. Price 25 cents per bottle. Sold by Druggists, Merchants and country storekeepers.

RADWAY & CO.,
87 Maiden Lane, New York.

HOLLOWAY'S PILLS AND OINTMENT—Deranged Stomach, Sick Headache.—Our comfort, happiness, and security depend on the knowledge that most diseases originate from apparently a trifling beginning, and that the large proportion of them spring from inattention to the state of the stomach. Professor Holloway has turned his knowledge to useful account by discovering medicines which cure, without exception, the attendants on disordered digestion. They ward off, likewise, the torturing sick headache. The Ointment should be well rubbed, twice daily, over the stomach, liver and bowels; to them it penetrates, and, aided by the Pills, immediately works a revolution as establishes perfect digestion.

HOLLOWAY'S PILLS.—No Medicine can surpass these Pills in their purifying and curative power, over every organ of the body. Stomach, liver lungs, heart, and kidneys, soon display subjection to their influence, by which all diseases of those organs are arrested, all obstructions removed, and every function is healthfully performed; the digestion is, by their influence, so improved that scarcely any food disagrees; acidity and flatulence alike are checked; nausea and biliousness disappear; firmness is given to every muscle, and tone to every nerve; the mind becomes exhilarated, and the thoughts become cheerful. These wonderful Pills correct dyspeptic habits; whether resulting from residence in hot climates or over indulgence, they secure by night sound and refreshing sleep, which fits the body for renewed exertions.

HOLLOWAY'S PILLS are decidedly the best remedy for all disorders of the stomach and bowels, the liver and kidneys. They act with so decided an effect, and yet so gently, that people of the most delicate constitutions may take them with the most perfect confidence. They do not contain one grain of mercury or other noxious substance, being composed exclusively of rare balsams. They are, therefore, equally safe and efficacious, and as a family medicine, nothing yet invented or discovered can be compared with them for a moment. With these inestimable Pills at hand, together with the printed directions affixed to each box, no other medical advice or assistance can be needed in any ordinary case of sickness.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the free circulation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves, vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment invariably results in a lasting and satisfactory cure. The two medicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.
